SUBMITTAL OF THE DRAFT WORK PLAN FOR THE SOLVENT EXTRACTION TREATABILITY STUDY - GRK-016-94

On June 23, 1994, M. J. Harris was provided four copies of the draft work plan for the Solvent Extraction Treatability Study (SETS). This work plan is currently being reviewed by EG&G Environmental Restoration Program Division (ERPD) personnel per 2-11000-ER-ADM, Work Plan Development. In addition, review by the Department of Energy, Rocky Flats Field Office (DOE/RFFO), the Environmental Protection Agency (EPA) and the Colorado Department of Health (CDH) is required.

As you know, EPA and CDH have directed RFFO and EG&G, Rocky Flats Inc., to provide them with treatability study results from the Sitewide Treatability Studies Program no later than November 12, 1994. In order to meet this reporting requirement, the SETS work plan must be reviewed in an expeditious manner. EG&G, Rocky Flats Inc. is requesting that the reviewed documents be returned to ERPD no later than July 8, 1994.

Please contact W. J. Roushey of the Treatability Studies/Feasibility Studies Team at extension 6951 or V. L. Ferguson at extension 6138 if you have questions concerning this request. Thank you for your cooperation in this matter.
